For successful running of the EM Virtual lab software the minimum system requirements are as follows:

1. Windows 7 or higher (PC/Laptop).

2. Processor: Intel i3 equivalent or higher.

3. 2 GB system RAM or higher.

4. At least 10 GB free hard disk space.

5. MS Office 2007 sp3 (or any higher version) installed. Works best with office 2019.

For satisfactory installation & running of the software, antivirus software's should be disabled.

Please keep your systems ready as per the above guidelines before downloading the application file.
