

## A TEQIP-III Sponsored Technical Talk on “Planning and Implementation of Construction work in E&P Industry” by Experts from Oil India Limited, Duliajan, covering part of syllabus for 7<sup>th</sup> Semester Students

With the aim to cover part of syllabus and give students knowledge about planning and implementation of construction work, Civil Engineering Department of JEC has conducted a One-day technical talk for UG 7<sup>th</sup> semester students in the departmental seminar hall on 1<sup>st</sup> November, 2018.

The program was inaugurated by Prof. P.K. Khaund, HOD, CED with an inaugural speech followed by greeting and welcoming of the resource person Mr. S.K. Biswas, GM(P&M) from Oil India Limited, Duliajan.

Mr. S.K.Biswas in his lecture elaborated different aspects of planning and implementation of construction project in OIL India Limited. Mr. Biswas presented about OIL India Limited, a little geology, role of civil engineering department in OIL India Limited, planning in brief, job execution, location of work etc.

In the syllabus of 7<sup>th</sup> semester, students learn about professional practice and construction technology in the subject PPCT. However, students generally feel the lack of in field exposure of a real time project. Therefore, to help students to bridge this gap and to complete their theoretical knowledge with the practical one, this particular talk was organized.

The lecture was followed by an interaction session with the students. Students showed great enthusiasm in this session and cleared their doubts.

The session ended with a vote of thanks to Mr. S.K. Biswas, TEQIP-III, Oil India limited and the students.
